

CONSOLID8'S REAL WORLD BUSINESS VALUATIONS FOR MODERN BUSINESS

Every business owner should have an **up-to-date business valuation**, not just those preparing to sell. Owners with investment requirements, expansion plans or reaching retirement will benefit from understanding the true value of their business and how to increase the EBIT multiple.

Selling your Business

Know the true value of your business and how to increase the EBIT multiple.

Retiring from your Business

Retire with financial security by growing the value of your business.

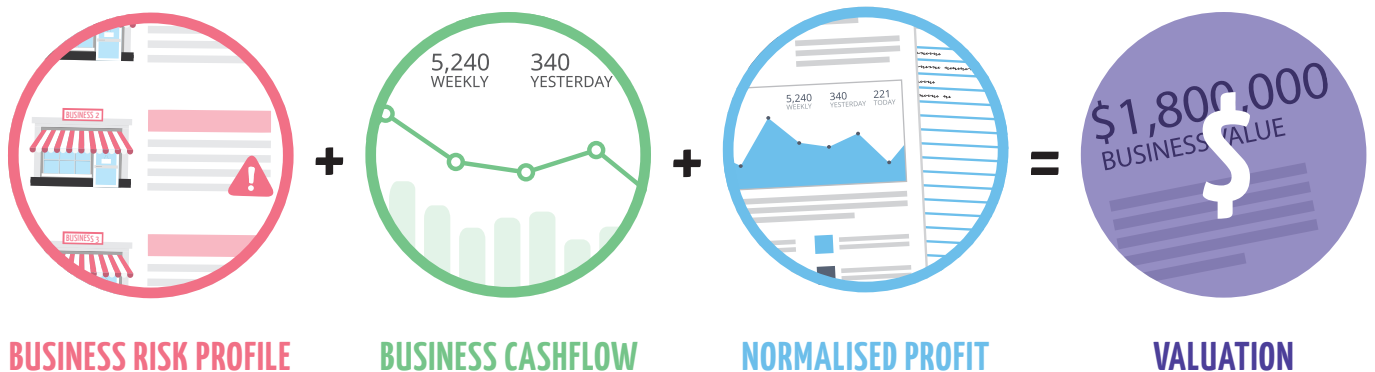

Investing in your Business

Secure capital injection from lending institutions or private equity.

THERE IS A DEFINITE SCIENCE TO CALCULATING THE VALUE OF YOUR BUSINESS

Consolid8 starts with a comprehensive risk assessment which analyses multiple factors that influence the value of your business. We review the business cash flow and normalised profit over the last three years. This enables us to accurately determine the true value of your business.

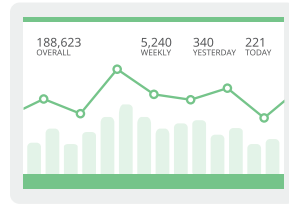

SOME OF THE STRATEGIES CONSOLID8 USES TO INCREASE BUSINESS VALUE

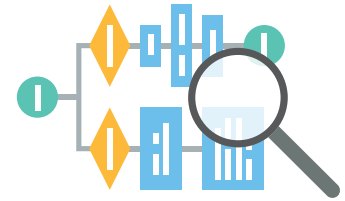

Increase Profitability

Profitable businesses have a higher value. We identify new ways to create efficiencies, reduce expenses and increase revenue.

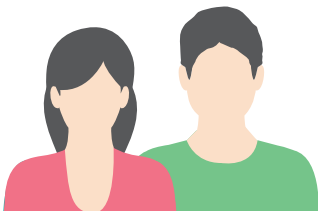

Stable Cashflow

Established revenue and predictable cash flow attracts a higher valuation. Lock in revenue streams and formalise contracts.

Improve Systems

How well your business operates without you has a big impact on its value. Develop and document systems and processes.

Leverage Staff

Skilled, knowledgeable employees increase business value. Cultivate a high quality workforce. Build incentives for key staff.

Physical Assets

Physical assets including office space and plant equipment should be well maintained to realise maximum value.

Intangible Assets

Protecting intangible assets like intellectual property, trademarks and customer databases boosts value.

CONSOLID8'S STRATEGIC SOLUTIONS CLOSE THE VALUE GAP IN YOUR BUSINESS
